

## JOB OFFER

**Education For Employment Tunisie** is partnering with the **Consolidated Contractors Company (CCC)** to implement a Construction Project Management (CM) Training Program in Tunisia to **recruit engineers**. The CM curriculum was developed by Colorado State University in 2006, home to the United States' largest department of construction management. The training delivery method is designed to be highly interactive, including learning activities and simulations. The CM program curriculum outline includes practical and application-oriented training, including:

- Proposal Writing, Qualification Packets, and Presentation Skills
- Planning and Scheduling
- Estimating and Bidding
- Contract Administration, Procurement, and Material Management
- Monitoring and Quality Assurance

You would also benefit from training in soft skills to better assist you in your new career. The selection criteria are:

- A degree from ENIT, ENIM, ENISO, ENIS, and ENIG in Civil, Mechanical, Electrical Engineering
- A degree in architecture
- Transcript/grades to reflect an average of at least 14/20
- Graduates must be as of 2012 or 2013 with no work experience
- English level of speaking and writing to be adequate for communication purposes
- Characteristics of candidates must include confidence, good presentation and have high ambitions for the future
- Basic knowledge of IT
- Flexibility to work outside Tunisia

Please send us a CV, a cover letter (in English) and a scan of your transcript (of the 3 last years) to the following address and don't hesitate to write us with any questions... [efe4ccc@gmail.com](mailto:efe4ccc@gmail.com)
